

Sacramento Nisei Bowling Association

Non-Nisei Acceptance Application

League Name: _____

Applicant's Name: _____

Non-Nisei acceptance into the association requires a two-thirds ($\frac{2}{3}$) majority vote of the Board of Directors present at the general association meeting. Prior to the general meeting review, applicants must review the Non-Nisei participation requirements listed below. Confirmation of the applicant's understanding of the commitment will be signified by the applicant's signature.

Non-Nisei Participation Requirements (upon board acceptance)

- Non-Nisei applicants must participate in the league through which the application was submitted for **two (2) consecutive years**.
- Non-Nisei applicants must bowl a minimum of **50%** of each winter season for **five (5) consecutive years** to maintain eligibility to participate in an association-recognized league.

Failure to comply with the Non-Nisei participation requirements will result in revocation of association membership. After the 5-year commitment has been met, Non-Nisei members will be granted exempt status, resulting in no future participation requirements needed within any association-recognized leagues.

Hardship Clause: If the 50% requirement in any given year is not achieved due to unforeseen circumstances such as illness, unanticipated change in work scheduling, or other circumstances deemed appropriate by the association, the bowler may request a hardship exemption. This process can be initiated by the league secretaries.
