

Sacramento Nisei Bowling Association

Non-Nisei Participation Hardship Application

League Name: _____

Applicant's Name: _____

Bowling Season: _____

Hardship Process

If a Non-Nisei bowler cannot meet the 50% participation requirement in any given year, the bowler may request a hardship exemption. Unforeseen circumstances such as illness, unanticipated change in work scheduling, or other circumstances deemed appropriate by the association, can be reviewed by the Board of Directors. If an exemption is granted, the bowler will typically be allowed to retain the consecutive years previously bowled prior to this season, but a decision will be made on a case-by-case basis. The current year when the 50% participation requirement was not met will not count towards the 5-year commitment requirement.

Hardship exemption requires a two-thirds ($\frac{2}{3}$) majority vote of the Board of Directors present at the general association meeting. If approved, the exemption will be valid for one year.
